

POLICY

for ELECTRICALLY-POWERED SCOOTERS, SKATEBOARDS and OTHER WHEELED RIDING DEVICES

Electrically-powered scooters, skateboards and other wheeled riding devices MAY be carried on the bus PROVIDED that they can be kept in a location that will not interfere with the safe operation of the bus or where they do not block the aisle or doors.

Fuel-powered wheeled riding devices are NOT ALLOWED on board the bus at any time.

If a customer attempts to board the bus with a device that is in violation of this policy, the driver must politely inform the customer of the policy. If customer persists and refuses to abide by the policy, the driver must continue in service but advise Dispatch of the issue so that a Supervisor or LAPD can meet the bus to handle the situation.
